

At the moment we had differentiated the seasons as Summer and Winter, but with this new change, the intention is to differentiate 4 seasons: peak season, medium-peak season, medium season and off-peak season).

The 4 seasons will be different in the Main Land, the Canary Islands, the Balearic Islands, Ceuta and Melilla. To make the most of keeping your costs as low as possible, refer to the below schedule to see the different seasons scheduled throughout the year:

ELECTRICITY SEASONS 3.0TD			
	MAIN LAND	CANARIES	BALEARIC
JANUARY	PEAK	MEDIUM	MEDIUM
FEBRUARY	PEAK	MEDIUM	MEDIUM
MARCH	MID-PEAK	MEDIUM	OFF-PEAK
APRIL	OFF-PEAK	OFF-PEAK	OFF-PEAK
MAY	OFF-PEAK	OFF-PEAK	MID-PEAK
JUNE	MEDIUM	OFF-PEAK	PEAK
JULY	PEAK	PEAK	PEAK
AUGUST	MEDIUM	PEAK	PEAK
SEPTEMBER	MEDIUM	PEAK	PEAK
OCTOBER	OFF-PEAK	PEAK	MID-PEAK
NOVEMBER	MID-PEAK	MID-PEAK	OFF-PEAK
DECEMBER	PEAK	MID-PEAK	MEDIUM

 Saving money in Spain made Simple!

Please find below how the price of electricity is distributed according to the season on the **Canary Islands**. The energy billed during weekends and national holidays will keep the price of off-peak electricity, during all hours of the day, anywhere:

Here is another way to identify the cheapest hours for the contracted power (which corresponds to contracted power called P6) of each season. This table corresponds only to the billing period for the Main Land:
